STK Certification is designed to test and verify a user's level of STK ability. To successfully pass all sections of the STK Certification test in the allotted 30 day time period, AGI recommends participants have the following STK expertise:

- Intermediate knowledge of STK Standard and STK Professional
- Basic knowledge of STK/Integration, STK/Terrain, Imagery and Maps, and STK/Coverage
- Frequent use of STK software

### SECTION I: ETHICS AGREEMENT

During the STK Certification process, registrants must agree to abide by the ethics statements set forth below. These terms govern the student's personal usage of the STK Certification test and the 30-day, node-locked STK evaluation licenses supplied to complete the exam.

Please read and initial each section to indicate understanding and compliance.

\_\_\_\_\_ Access to the STK Certification Test: After AGI receives payment, the student will receive an STK Certification test packet and CD. It is not permissible to share, distribute, or copy the STK Certification Test.

\_\_\_\_\_ Access to STK software: A 30-day, node-locked evaluation license pack will be distributed to the student. Use of these licenses is limited to accessing software functionality necessary to complete the STK Certification test. The student is expressly forbidden to use the licenses for commercial use. Participants will be granted these 30-day evaluation licenses for the computer of their choice.

## VERIFICATION STATEMENT

I am an STK user that wishes to participate in the STK Certification examination process. I believe my STK experience level and ethics allow me to undertake this test within the allotted 30 day time period. Finally, I understand AGI is not responsible for my ability to complete or successfully pass the STK Certification test.
